## RULES

1. Entries shall be in accordance with the schedule.
2. Exhibitors need not be members of AGGS.
3. Entries will be accepted only during hours specified. An exhibitor may request that the Classification Committee accept an entry for exhibit only. These entries, and all entries arriving after the close of entries, will be placed for exhibit only, will not be judged, and will be located in a separate area of the showroom. Where appropriate, educational information should be provided.
4. All entries for competition must be approved by the Classification Committee. Nonconformity to the schedule may bring disqualification.
5. An exhibitor is limited to one specimen of the same plant per class in the Horticulture Division. An exhibitor may submit more than one entry per class, provided each entry is a different species, cultivar or hybrid unless otherwise prohibited.
6. In fairness to amateur growers, institutions may not make more than two entries in the Horticulture, Artistic or Arts Divisions of the flower show. The same restriction applies to commercial growers who have employees who assist with the culture and grooming of potential entries.
7. Classes may be subdivided or consolidated by the Show Committee after entries close.
8. No entries may be removed from the showroom until the show closes. All entries must be checked out through the Show Committee.
9. All plants must be grown by the exhibitor and have been in the exhibitor's possession for at least three months prior to the show. This rule does not apply to plant material used in Division II.
10. All entries will be staged in the showroom by the Placement Committee. Artistic arrangements and collections can be executed in the showroom by the exhibitor in the space designated, and during the stated time for entries. Cut blossoms or plant material may be placed in artistic arrangements on Friday morning from 6:00 to 6:15 a.m. by previous written arrangement with the Flower Show Chairperson.
11. Exhibitors will be permitted to indicate the front of a horticultural entry.
12. All plants must be free of insects and disease. All will be inspected, including commercial and educational exhibits as well as entries for exhibit only.
13. AGGS standard competitive judging will be used.
14. Awards will be made according to the following point scores: 1st, blue ribbon, 90-100; 2nd, red ribbon, at least 80; 3rd, yellow ribbon, at least 70. Honorable Mention may also be awarded.
15. Special Awards (more than a class ribbon) will be reserved for AGGS members only unless otherwise offered to non-members. An exhibit must score 90 or above to be considered.
16. There will be a Sweepstakes Award for the Horticulture Division and a Sweepstakes award for the Artistic Division. An exhibitor must win a minimum of 3 blue ribbons in that division to be eligible for the award. These awards are reserved for AGGS members only.
17. The award for Best Gesneriad in Show in the Horticulture Division (excluding *Saintpaulia*) is given for horticultural perfection. A plant must score 95 points or over to be considered for this award. Reserved for AGGS members only.
18. AGGS will endeavor to protect all entries but assumes no responsibility for loss or damage.

## EXHIBITOR'S INFORMATION

The exhibitor must prepare a list of plants and other exhibits with the appropriate Section and Class numbers to facilitate the work of the Entries Committee. The Flower Show Committee will assist in identifying material unknown to the exhibitor. An exhibitor may provide educational information on a white 3"×5" card for any entry in the show for which a card is not a requirement.

**A computerized entry system will be used, and a pre-entry form will be included in each registration packet. Exhibitors are required to submit their pre-entry forms (at the Registration table) on Wednesday or latest by 8:00 a.m. on Thursday. Your cooperation will help expedite the actual entries process for everyone.**

No particular type of container is specified for the Horticulture Division. Whatever is used should be clean. Foil covering should be avoided. A protective container or cover made of transparent material to shield delicate plant material from dry air or cold drafts may be used for any exhibit requiring it. Such plants may be judged uncovered.

The class for a collection of gesneriads of one genus stresses horticulture primarily, but as this serves to focus attention on a special group, there should be some degree of presentation. Uniform type and color of container would be a first step toward unity. Some simple staging to provide different levels may be provided by the exhibitor. The plants might be grouped in a basket or a tray.

Straight-sided terraria are composed of flat pieces of glass or plastic; curved terraria are composed of rounded pieces.

Photography: The photographer is being judged on the skill, technique and composition displayed, not on the quality of the plant material chosen as a subject.

Educational exhibits may be entered by institutions, chapters, study groups, or individuals. Any project relating to gesneriads may be presented with illustrative material that may or may not include live plant material.
