

January 11, 2023 GHA seed fund list

When requesting seeds from Mel Grice, if you do not give him your snail mail address, you will **NOT** receive any seeds. GHA is not certain of your address unless you tell Mel what it is each and every time you order seeds.

Mel Grice <melsgrice@gmail.com>

Because there is usually a big rush for ordering seeds when the **CrossWords** newsletter is sent, you must give at least 10 substitutions. Often Mel receives a couple dozen seeds from one cross, so supplies could be limited.

Keep in mind that the request limit is five (5) packets each time **CrossWords** is mailed. Since GHA is absorbing the costs of mailing, please make no more than 3 requests a year with a maximum of 5 packets (but send 10 substitute requests per time).

JS 17-01 *Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Pedra Lisa' – This hybrid yielded large reds, blues, and pinks that usually peloric and of good flower size. Many had spots.

JS 17-02 *Sinningia speciosa* 'Sentsational Pepperpot' × *Sinningia speciosa* 'Pedra Lisa' — In this cross S. 'Pedra Lisa' proved dominant. I got many combinations of lavender and white nodding flowers, some with 6 petals and some were pleasantly fragrant.

JS 17-06 (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Pedra Lisa') × (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Thad's Gas Planet') — This was a cross between a dark red and a 6 lobed blue flower. Hoping for a floriferous plant with red nodding flowers of good size.

JS 17-07 (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Thad's Gas Planet') × (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Pedra Lisa') — A light nodding lavender crossed onto a dark peloric red.

JS 17-08 (*Sinningia speciosa* 'Sentsational Pepperpot' × *Sinningia speciosa* 'Pedra Lisa') × (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Pedra Lisa') — I got a very compact seedling with great veining in the foliage and crossed it onto a large nodding white flower. I'm hoping for large white flowers on a compact plant with great foliage.

JS 17-09 (*Sinningia speciosa* 'Sentsational Pepperpot' × *Sinningia speciosa* 'Pedra Lisa') × (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Thad's Gas Planet') — I made this cross hoping for 6 lobed red nodding flowers with fragrance. The pollen parent was a large dark red crossed onto a 6 lobed lavender nodding flower.

JS 17-10 (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Thad's Gas Planet') × (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Pedra Lisa') — This cross has a large white nodding flower crossed onto a peloric red. I was hoping for red flowers with white on the outside.

JS 17-13 (*Sinningia speciosa* 'Bristol's Good Morning' × *Sinningia speciosa* 'Pedra Lisa') × Peloric White — I bought a commercially produced peloric white *S. speciosa* and crossed it onto a good red, hoping for some combination of red and white.

LTL 19-20 (*Sinningia* 'Butter and Cream' x S. 'Mama Cat') x self

NOTE: (1) S. 'Butter and Cream' came from a selfing.

(2) The S. *araneosa* hybrid comes from S. *araneosa* x 'Mama Cat'. I am only thinking the plant and leaves resemble that of S. 'Mama Cat'. The leaves are lighter in color compared to S. 'Mama Cat'. This is only a deduction and may not be accurate.

(3) *Sinningia* 'Mama Cat' is a S. *sellovi* hybrid that has dark reddish leaves with reddish flowers.
