

March 10, 2025 GHA seed fund list

When requesting seeds from Mel Grice, if you do not give him your snail mail address, you will **NOT** receive any seeds. GHA is not certain of your address unless you tell Mel what it is each and every time you order seeds.

Mel Grice <melsgrice@gmail.com>

Because there is usually a big rush for ordering seeds when the **CrossWords** newsletter is sent, you must give at least 10 substitutions. Often Mel receives a couple dozen seeds from one cross, so supplies could be limited.

Keep in mind that the request limit is five (5) packets each time **CrossWords** is mailed. Since GHA is absorbing the costs of mailing, please make no more than 3 requests a year with a maximum of 5 packets (but send 10 substitute requests per time).

MS 18-01 Sinningia 'Butter and Cream' x self or with tubiflora (Open pollinated)

Jay Sespico, USA

JS 17-01 Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Pedra Lisa' — This hybrid yielded large reds, blues, and pinks that usually peloric and of good flower size. Many had spots.
JS 17-02 Sinningia speciosa 'Sentsational Pepperpot' x Sinningia speciosa 'Pedra Lisa' — In this cross S. 'Pedra Lisa' proved dominant. I got many combinations of lavender and white nodding flowers, some with 6 petals and some were pleasantly fragrant.
JS 17-06 (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Pedra Lisa') x (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Thad's Gas Planet') — This was a cross between a dark red and a 6 lobed blue flower. Hoping for a floriferous plant with red nodding flowers of good size.
JS 17-07 (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Thad's Gas Planet') x (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Pedra Lisa') — A light nodding lavender crossed onto a dark peloric red.
JS 17-09 (Sinningia speciosa 'Sentsational Pepperpot' x Sinningia speciosa 'Pedra Lisa') x (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Thad's Gas Planet') — I made this cross hoping for 6 lobed red nodding flowers with fragrance. The pollen parent was a large dark red crossed onto a 6 lobed lavender nodding flower.
JS 17-10 (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Thad's Gas Planet') x (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Pedra Lisa') — This cross has a large white nodding flower crossed onto a peloric red. I was hoping for red flowers with white on the outside.
JS 17-13 (Sinningia speciosa 'Bristol's Good Morning' x Sinningia speciosa 'Pedra Lisa') x Peloric White — I bought a commercially produced peloric white S. speciosa and crossed it onto a good red, hoping for some combination of red and white.

LTL 19-14 *Sinningia araneosa* hybrid x (S. sellovii x S. warmingii) F2
LTL 19-15 *Sinningia speciosa* hybrid - light background with lots of tiny lavender pink spots, nodding flowers
LTL 19-16 (*Sinningia sellovii* x S. warmingii) F2 x S. araneosa hybrid
LTL 19-17 *Sinningia* 'Butter and Cream' x (S. sellovii x S. warmingii)
LTL 19-19 (*Sinningia sellovii* x S. warmingii) x S. Butter and Cream (open pollinated)
LTL 19-20 (*Sinningia* 'Butter and Cream' x S. 'Mama Cat') x self

NOTE: (1) S. 'Butter and Cream' came from a selfing.

(2) The S. araneosa hybrid comes from S. araneosa x 'Mama Cat'. I am only thinking the plant and leaves

resemble that of S. 'Mama Cat'. The leaves are lighter in color compared to S. 'Mama Cat'. This is only a deduction and may not be accurate.

(3) *Sinningia* 'Mama Cat' is a *S. sellovi* hybrid that has dark reddish leaves with reddish flowers.

LTL 21-01 *Sinningia* tall mix hybrids (*sellovi*, *warmingii*, etc.)
LTL 21-02 *Sinningia* unknown (probably *sellovii* hybrid)
LTL 21-03 *Sinningia sellovii* hybrid x unknown (possibly *sellovii* hybrid?)
