October 30, 2026 GHA seed fund list

When requesting seeds from Mel Grice, if you do not give him your snail mail address, you will **NOT** receive any seeds. GHA is not certain of your address unless you tell Mel what it is each and every time you order seeds.

Mel Grice <melsgrice@gmail.com>

Because there is usually a big rush for ordering seeds when the ***CrossWords*** newsletter is sent, you must give at least 10 substitutions. Often Mel receives a couple dozen seeds from one cross, so supplies could be limited.

Keep in mind that the request limit is five (5) packets each time ***CrossWords*** is mailed. Since GHA is absorbing the costs of mailing, please make no more than 3 requests a year with a maximum of 5 packets (but send 10 substitute requests per time).

Jay Sespico, USA
JS 17-01 Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Pedra Lisa' – This hybrid yielded large reds, blues, and pinks that usually peloric and of good flower size. Many had spots.
JS 17-02 Sinningia speciosa 'Sentsational Pepperpot' × Sinningia speciosa 'Pedra Lisa' — In this cross S. 'Pedra Lisa' proved dominant. I got many combinations of lavender and white nodding flowers, some with 6 petals and some were pleasantly fragrant.
JS 17-06 (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Pedra Lisa') × (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Thad's Gas Planet') — This was a cross between a dark red and a 6 lobed blue flower. Hoping for a floriferous plant with red nodding flowers of good size.
JS 17-07 (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Thad's Gas Planet') × (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Pedra Lisa') — A light nodding lavender crossed onto a dark peloric red.
JS 17-09 (Sinningia speciosa 'Sentsational Pepperpot' × Sinningia speciosa 'Pedra Lisa') × (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Thad's Gas Planet') — I made this cross hoping for 6 lobed red nodding flowers with fragrance. The pollen parent was a large dark red crossed onto a 6 lobed lavender nodding flower.
JS 17-10 (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Thad's Gas Planet') × (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Pedra Lisa') — This cross has a large white nodding flower crossed onto a peloric red. I was hoping for red flowers with white on the outside.
JS 17-13 (Sinningia speciosa 'Bristol's Good Morning' × Sinningia speciosa 'Pedra Lisa') × Peloric White — I bought a commercially produced peloric white S. speciosa and crossed it onto a good red, hoping for some combination of red and white.
JS 17-16 Gesneria christii × self
JS 17-17 Sinningia cardinalis (pink) × self
JS 17-19 Sinningia gesneriifolia × self

LTL 19-20 (Sinningia 'Butter and Cream' x S. 'Mama Cat') x self
NOTE: (1) S. 'Butter and Cream' came from a selfing.
(2) The S. araneosa hybrid comes from S. araneosa x 'Mama Cat'. I am only thinking the plant

and leaves resemble that of S. ‘Mama Cat’. The leaves are lighter in color compared to S. ‘Mama Cat’. This is only a deduction and may not be accurate.

(3) Sinningia ‘Mama Cat’ is a S. sellovi hybrid that has dark reddish leaves with reddish flowers.

LTL 21-01 Sinningia tall mix hybrids (sellovi, warmingii, etc.)
